Subject index

Acetonitrile
Dependence of the flat-band potential of n-type GaAs on the redox potential in methanol and acetonitrile (Ba et al.) 263
Acid solution
Mass transfer effect in hydrogen evolution reaction on Pt single-crystal electrodes in acid solution (Kita et al.) 351
Active state
Effect of the ohmic potential drop on the onset of current oscillations at the transition between active and passive states of a cobalt electrode in phosphoric acid solutions (Pagitsas, Sazou) 81
Adsorption Difenzoquat
Growth of compact layers at the interface. Part VI. Adsorption properties of difenzoquat herbicide (1,2-dimethyl-3,5-diphenylpyrazolium) (Pospíšil et al.) 309
Alkali metal salt
Liquid junction potential between different solvents. A junction with an alkali metal salt as electrolyte (Izutsu et al.) 213
Alkaline media
Electrochemical behaviour of Pt(111) in alkaline media. Effect of specific adsorption of anions (Morallón et al.) 323
Analytical spectroelectrochemistry
Theory and application of analytical spectroelectrochemistry with long path length spectroelectrochemical cells. Part II: non-linear regression analysis of analytical spectroelectrochemical data for estimation of electrochemical parameters (Wanzhi et al.) 1
Anion adsorption
Electrochemical behaviour of Pt(111) in alkaline media. Effect of specific adsorption of anions (Morallón et al.) 323
Anodic oxide film
Significance of the apparent limit of anodic oxide film formation at Pt: saturation coverage by the quasi two-dimensional state (Jerkiewicz et al.) 359
Aromatic derivatives
The cathodic scission of aromatic derivatives in the presence of nitrones as spin markers: on the reactivity of transient nitroxides in weak H-donor solvents. Part 2. On the cleavage of aromatic sulphones and halides in benzonitrile (Simonet et al.) 169
Ascorbate interference
Strategies for reducing ascorbate interference at glucose oxidase modified conducting organic salt electrodes (Lowry, D.O'Neill) 183
Atropine sulphate
Investigations of hydrolysis kinetics of atropine sulphate by electroanalysis at the water/nitrobenzene interface (Wang et al.) 195

Benzonitrile
The cathodic scission of aromatic derivatives in the presence of nitrones as spin markers: on the reactivity of transient nitroxides in weak H-donor solvents. Part 2. On the cleavage of aromatic sulphones and halides in benzonitrile (Simonet et al.) 169
Binary electrolyte
Exact solutions of transport in a binary electrolyte (Choi, Chan) 13
Bioelectrochemical responses
Bioelectrochemical responses of the polyaniline uricase electrode (Mu et al.) 121
Bromide oxidation
Potential step chronoamperometry at the wall-jet electrode: experimental (Brett et al.) 57
Bromination
A quantitative study of cross-linking in elec-

trodeposited carbazole films using tetrabutylammonium tribromide bromination and XPS analysis (Desbene-Monvernay et al.) 241

Cadmium sulphide
Characterisation of the n-CdS/polysulphide interface by intensity modulated photocurrent spectroscopy (Herrasti et al.) 133
Carbazoles
A quantitative study of cross-linking in electrodeposited carbazole films using tetrabutylammonium tribromide bromination and XPS analysis (Desbene-Monvernay et al.) 241
Carbon film
Fabrication and electrochemical features of new carbon based interdigitated array microelectrodes (Tabei et al.) 25
Cathodic scission
The cathodic scission of aromatic derivatives in the presence of nitrones as spin markers: on the reactivity of transient nitroxides in weak H-donor solvents. Part 2. On the cleavage of aromatic sulphones and halides in benzonitrile (Simonet et al.) 169
Chronoamperometry
Potential step chronoamperometry at the wall-jet electrode: experimental (Brett et al.) 57
Citrate buffer solutions
Passivation of tin in citrate buffer solutions (Šeruga, Metikoš-Huković) 223
Cobalt electrode
Effect of the ohmic potential drop on the onset of current oscillations at the transition between active and passive states of a cobalt electrode in phosphoric acid solutions (Pagitsas, Sazou) 81
Compact layers
Growth of compact layers at the interface. Part VI. Adsorption properties of difenzoquat herbicide (1,2-dimethyl-3,5-diphenylpyrazolium) (Pospíšil et al.) 309
Copper complexes
Thin polymeric films of metal-dibenzotetraaza[14]annulene by electropolymerization of some γ,γ'-disubstituted complexes. Part 2. Copper complexes (Deronzier, Marques) 247

Disubstituted complexes
Thin polymeric films of metal-dibenzotetraaza[14]annulene by electropolymerization of some γ,γ'-disubstituted complexes. Part 2. Copper complexes (Deronzier, Marques) 247

Electrochemical reduction
The electrochemical reduction of halothane. Part 1. A mechanistic study (Mount et al.) 155
Electron transfer
Electron transfer mechanisms of flavine adenine dinucleotide at the glassy carbon electrode; a model study for protein electrochemistry (Verhagen, Hagen) 339
Electropolymerization
A quantitative study of cross-linking in electrodeposited carbazole films using tetrabutylammonium tribromide bromination and XPS analysis (Desbene-Monvernay et al.) 241
Equilibrium potential
Theory of equilibrium potential involving order–disorder transition at polyaniline-coated electrodes (Aoki) 279

Ferrocyanide oxidation
Potential step chronoamperometry at the wall-jet electrode: experimental (Brett et al.) 57
Flat-band potential
Dependence of the flat-band potential of n-type GaAs on the redox potential in methanol and acetonitrile (Ba et al.) 263
Flavine adenine dinucleotide
Electron transfer mechanisms of flavine adenine dinucleotide at the glassy carbon electrode; a model study for protein electrochemistry (Verhagen, Hagen) 339

Gas-diffusion electrodes
Microfabricated gas-diffusion electrodes (Tang, Chan) 65
Glucose oxidase
Strategies for reducing ascorbate interference at glucose oxidase modified conducting organic salt electrodes (Lowry, D.O'Neill) 183

Halothane
The electrochemical reduction of halothane. Part 1. A mechanistic study (Mount et al.) 155

Hydrogen evolution
Mass transfer effect in hydrogen evolution reaction on Pt single-crystal electrodes in acid solution (Kita et al.) 351
Hydrolysis kinetics
Investigations of hydrolysis kinetics of atropine sulphate by electroanalysis at the water/nitrobenzene interface (Wang et al.) 195
Hydroxyl radicals
Reaction of inflammation inhibitors with chemically and electrochemically generated hydroxyl radicals (Oturan et al.) 103

IMPS
Characterisation of the n-CdS/polysulphide interface by intensity modulated photocurrent spectroscopy (Herrasti et al.) 133
Inflammation inhibitors
Reaction of inflammation inhibitors with chemically and electrochemically generated hydroxyl radicals (Oturan et al.) 103
Interdigitated Array Microelectrodes
Fabrication and electrochemical features of new carbon based interdigitated array microelectrodes (Tabei et al.) 25

Ketoprofen
Reaction of inflammation inhibitors with chemically and electrochemically generated hydroxyl radicals (Oturan et al.) 103

Liquid junction potential
Liquid junction potential between different solvents. A junction with an alkali metal salt as electrolyte (Izutsu et al.) 213

Membrane transport
Electrochemically controlled transport of potassium chloride across a conducting electro-active polymer membrane (Zhao et al.) 111
Metal-dibenzotetraaza[14]annulene
Thin polymeric films of metal-dibenzotetraaza[14]annulene by electropolymerization of some γ,γ'-disubstituted complexes. Part 2. Copper complexes (Deronzier, Marques) 247
Metal hexacyanoferrates
Zeolite matrix effects on the electrochemistry of metal hexacyanoferrates (Bharathi et al.) 145
Methanol
Dependence of the flat-band potential of n-type GaAs on the redox potential in methanol and acetonitrile (Ba et al.) 263
Microfabricated mesh
Microfabricated gas-diffusion electrodes (Tang, Chan) 65

Non-linear regression
Theory and application of analytical spectroelectrochemistry with long path length spectroelectrochemical cells. Part II: non-linear regression analysis of analytical spectroelectrochemical data for estimation of electrochemical parameters (Wanzhi et al.) 1

Ohmic potential drop
Effect of the ohmic potential drop on the onset of current oscillations at the transition between active and passive states of a cobalt electrode in phosphoric acid solutions (Pagitsas, Sazou) 81
Organic salt electrodes
Strategies for reducing ascorbate interference at glucose oxidase modified conducting organic salt electrodes (Lowry, D.O'Neill) 183

Passivation
Passivation of tin in citrate buffer solutions (Šeruga, Metikoš-Huković) 223
Passive state
Effect of the ohmic potential drop on the onset of current oscillations at the transition between active and passive states of a cobalt electrode in phosphoric acid solutions (Pagitsas, Sazou) 81
Phosphoric acid
Effect of the ohmic potential drop on the onset of current oscillations at the transition between active and passive states of a cobalt electrode in phosphoric acid solutions (Pagitsas, Sazou) 81
Platinum(111)
Electrochemical behaviour of Pt(111) in alkaline media. Effect of specific adsorption of anions (Morallón et al.) 323
Platinum electrode
Mass transfer effect in hydrogen evolution reaction on Pt single-crystal electrodes in acid solution (Kita et al.) 351

Significance of the apparent limit of anodic oxide film formation at Pt: saturation coverage by the quasi two-dimensional state (Jerkiewicz et al.) 359
Electrochemical behaviour of squaric acid on single-crystal platinum electrodes with basal orientations in aqueous sulphuric acid medium (Albalat et al.) 291

Polyaniline
Theory of equilibrium potential involving order–disorder transition at polyaniline-coated electrodes (Aoki) 279
Bioelectrochemical responses of the polyaniline uricase electrode (Mu et al.) 121

Polymeric films
Thin polymeric films of metal-dibenzotetraaza[14]annulene by electropolymerization of some γ,γ'-disubstituted complexes. Part 2. Copper complexes (Deronzier, Marques) 247

Polypyrrole
Electrochemically controlled transport of potassium chloride across a conducting electro-active polymer membrane (Zhao et al.) 111
Polypyrrole film electrodes electrochemically doped with tetrathiomolybdate anions: preparation and characterization (Girard et al.) 35

Potassium chloride
Electrochemically controlled transport of potassium chloride across a conducting electro-active polymer membrane (Zhao et al.) 111

Protein electrochemistry
Electron transfer mechanisms of flavine adenine dinucleotide at the glassy carbon electrode; a model study for protein electrochemistry (Verhagen, Hagen) 339

Redox potential
Dependence of the flat-band potential of n-type GaAs on the redox potential in methanol and acetonitrile (Ba et al.) 263

Resistive media
Facilitated sodium transfer from aqueous electrolytes to resistive media (Shao, Girault) 203

Reticulation
A quantitative study of cross-linking in electrodeposited carbazole films using tetrabutylammonium tribromide bromination and XPS analysis (Desbene-Monvernay et al.) 241

Saturation coverage
Significance of the apparent limit of anodic oxide film formation at Pt: saturation coverage by the quasi two-dimensional state (Jerkiewicz et al.) 359

Silver
Microfabricated gas-diffusion electrodes (Tang, Chan) 65

Sodium transfer
Facilitated sodium transfer from aqueous electrolytes to resistive media (Shao, Girault) 203

Solvents
Liquid junction potential between different solvents. A junction with an alkali metal salt as electrolyte (Izutsu et al.) 213

Spectroelectrochemical cells
Theory and application of analytical spectroelectrochemistry with long path length spectroelectrochemical cells. Part II: non-linear regression analysis of analytical spectroelectrochemical data for estimation of electrochemical parameters (Wanzhi et al.) 1

Squaric acid
Electrochemical behaviour of squaric acid on single-crystal platinum electrodes with basal orientations in aqueous sulphuric acid medium (Albalat et al.) 291

Sulphuric acid medium
Electrochemical behaviour of squaric acid on single-crystal platinum electrodes with basal orientations in aqueous sulphuric acid medium (Albalat et al.) 291

Tetrabutylammonium tribromide
A quantitative study of cross-linking in electrodeposited carbazole films using tetrabutylammonium tribromide bromination and XPS analysis (Desbene-Monvernay et al.) 241

Tetrathiomolybdate anions
Polypyrrole film electrodes electrochemically doped with tetrathiomolybdate anions: preparation and characterization (Girard et al.) 35

Tin
Passivation of tin in citrate buffer solutions (Šeruga, Metikoš-Huković) 223

Transport solutions
Exact solutions of transport in a binary electrolyte (Choi, Chan) 13

Uric acid
Bioelectrochemical responses of the polyaniline uricase electrode (Mu et al.) 121

Wall-jet electrode
Potential step chronoamperometry at the wall-jet electrode: experimental (Brett et al.) 57

XPS
A quantitative study of cross-linking in electrodeposited carbazole films using tetrabutylammonium tribromide bromination and XPS analysis (Desbene-Monvernay et al.) 241

Zeolite matrix
Zeolite matrix effects on the electrochemistry of metal hexacyanoferrates (Bharathi et al.) 145
